## Description:

The EJB enclosures are made of aluminium alloy. They are rectangular shaped and complete with a flat joint cover, which is fixed by hexagonal head screws.

## Application:

The enclosures are suitable to contain terminals, contactors, switches, transformers, capacitors, PLC and other electric, electronic equipment and intrinsic safety devices.

## Materials:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.  
Brackets: galvanized steel.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIB Gb / Ex tb IIIC Db  
II 2GD Ex d [i. G.] IIB T6 Gb / Ex tb [i.D] IIIC T85°C Db.  
Class of Temperature: T6 / T85 °C → T3 / T200 °C.  
Protection Degree: IP66 / IP67\*.  
Certificate: INERIS 10ATEX0035X.  
Ambient Temp.: -20 °C / +60 °C (+40 / +50 / +55 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).  
Metric x 1.5 (ISO 261).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## On request:

\*IP67 protection with o-ring.  
Galvanized steel or stainless steel hinges.  
Galvanized steel equipment plate.  
Pushbuttons, pilot light, selector switches.  
Breathing / draining valve.  
Wiring.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Other type of threads [ISO7/1 (UNI6125), PG (DIN 40430)].  
Cable glands for armoured or non armoured cable.

## Drawing EJB

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension with mounting brackets.
- C - Maximum external dimension with cover.
- D - Internal dimension.
- E - Internal dimension.
- F - Internal depth.
- G - Fixing holes wheel base.
- H - Fixing holes wheel base.
- Ø l - Fixing holes diameter.

## Grounding:

External: M6 grounding point (EJB complete serie).  
Internal: M5 grounding point (EJBØ → EJB14A; EJB16).  
M6 grounding point (EJB15 → EJB20A; except EJB16).

Note: - available cable entry with 1/4" and 3/8" diameter (or other equivalent thread type) with the same maximum number of 1/2" holes.  
 - the cable entries with Metric (x 1.5) threads are equivalent in number with the inches threads listed in the above table.  
 The comparison between Metric (x 1.5) and inches is according to the below table.

## EJB - Threads Comparison Table

EJB - Mounting Plates in galvanized steel, thickness 20/10 mm

Note: the positioning of the mounting plate reported here above is purely as an example, the location of the earth screw depends on the type of enclosure.

Release date 2011-01-24 – Updated 2013-04-19 - A5

## Description:

The EJB/W enclosures are made of aluminium alloy. They are rectangular shaped with a flat joint cover fixed by hexagonal head screws. In addition a window or circular port-hole for visualization can be mounted.

## Application:

The enclosures are suitable to contain and visualize terminals, contactors, switches, transformers, capacitors, PLC and other electric, electronic equipment and intrinsic safety devices.

## Materials:

Body and cover: copper free aluminium alloy.  
 Window: thermo-resistant tempered glass.  
 Screws: stainless steel.  
 Brackets: galvanized steel.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIB Gb / Ex tb IIIC Db  
 II 2GD Ex d [i. G.] IIB T6 Gb / Ex tb [i.D] IIIC T85°C Db.  
 Class of Temperature: T6 / T85 °C → T3 / T200 °C.  
 Protection Degree: IP66 / IP67\*.  
 Certificate: INERIS 10ATEX0035X.  
 Ambient Temp.: -20 °C / +60 °C (+40 / +50 / +55 °C).  
 Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).  
 Metric x 1.5 (ISO 261).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## On request:

\*IP67 protection with o-ring.  
 Galvanized steel or stainless steel hinges.  
 Galvanized steel equipment plate.  
 Pushbuttons, pilot lights, selector switches.  
 Breathing / draining valve.  
 Wiring.  
 Other epoxy painting colours different from the standards.  
 Special inhibiting treatment.  
 Other type of threads [ISO7/1 (UNI6125), PG (DIN 40430)].  
 Cable glands for armoured or non armoured cable.

## Drawing EJB/W

## Drawing EJB/WG

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension with mounting brackets.
- C - Maximum external dimension with cover.
- D - Internal dimension.
- E - Internal dimension.
- F - Internal depth.
- G - Fixing holes wheel base.
- H - Fixing holes wheel base.
- Ø l - Fixing holes diameter.
- X - Window dimension.
- Y - Window dimension.
- S - Chassis internal thickness.
- Ø - Port-hole diameter.

Note: - available cable entry with 1/4" and 3/8" diameter (or other equivalent thread type) with the same maximum number of 1/2" holes.  
 - the cable entries with Metric (x 1.5) threads are equivalent in number with the inches threads listed in the above table.  
 The comparison between Metric (x 1.5) and inches is according to the below table.

## EJB - Threads Comparison Table

Release date 2011-01-24 – Updated 2013-04-19 - A5

EJB - Mounting Plates in galvanized steel, thickness 20/10 mm

Note: the positioning of the mounting plate reported here above is purely as an example, the location of the earth screw depends on the type of enclosure.

Release date 2011-01-24 – Updated 2013-04-19 - A5

## Description:

The EJB/X enclosures are made of stainless steel. They are rectangular shaped and complete with a flat joint cover, which is fixed by hexagonal head screws.

The stainless steel enclosures (EJB/X/W) can install the same type of rectangular thermo-resistant tempered glass window.

## Application:

The enclosures are suitable to contain terminals, contactors, switches, transformers, capacitors, PLC and other electric, electronic equipments and I.S. devices.

## Materials:

Body and cover: stainless steel AISI 316L.

Screws: stainless steel.

Welded brackets: stainless steel.

Windows: thermo-resistant tempered glass.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIB Gb / Ex tb IIIC Db

II 2GD Ex d [i. G.] IIB T6 Gb / Ex tb [i.D] IIIC T85°C Db.

Class of Temperature: T6/T85 °C → T3/T200 °C.

Protection Degree: IP66 / IP67\*.

Certificate: INERIS 10ATEX0035X.

Ambient Temp.: -20 °C / +60 °C (+40 / +50 / +55 °C).

Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).

Metric x1.5 (ISO 261).

## On request:

AISI 304 version.

\*IP67 protection with o-ring.

Stainless steel hinges.

Galvanized or stainless steel equipment plate.

Pushbuttons, pilot light, selector switches.

Breathing / draining valve.

Wiring.

Special inhibiting treatment.

Cable glands for armoured or non armoured cable.

## Drawing EJB/X

## Drawing EJB/X/W

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension with mounting brackets.
- C - Maximum external dimension with cover.
- D - Internal dimension.
- E - Internal dimension.
- F - Internal depth.
- G - Fixing holes wheel base.
- H - Fixing holes wheel base.
- Ø I - Fixing holes diameter.
- X - Window Dimension.
- Y - Window Dimension.
- S - Chassis internal thickness.

## EJB/X - Data Table

EJB/X 20A	920	670	437	800	550	390	697	630	16	316

All Enclosures are available with o-ring for IP67 protection degree.

For IP67 protection degree, the dimensions "A" and "B" will be slightly more than standard version (IP66).

## EJB/X/W Window Size

Dimensions [mm]

Glass size	Rectangular windows			
	W0	W1	W2A	W7
X	75	105	180	120
Y	75	75	40	108
S	22	22	22	35

\*\* For obtaining the useful depth of the enclosures, the size "S" must be deducted from the size "F".

Note: - cable entry holes are realized by welded coupling  
 - available cable entry with 1/4" and 3/8" diameter (or other equivalent thread type) with the same maximum number of 1/2" holes.  
 - the cable entries with Metric (x 1.5) threads are equivalent in number with the inches threads listed in the above table.  
 The comparison between Metric (x 1.5) and inches is according to the below table.

## EJB - Threads Comparison Table

Inches	1/4"	3/8"	1/2"	3/4"	1"	1 1/4"	1 1/2"	2"	2 1/2"	3"
Metric (x 1.5)	M12	M16	M20	M25	M32	M40/M42	M50	M63	M75	M85

EJB - Mounting Plates in galvanized steel, thickness 20/10 mm

Note: the positioning of the mounting plate reported here above is purely as an example, the location of the earth screw depends on the type of enclosure.

Release date 2011-01-24 – Updated 2013-04-19 - A5

# ASM/CI - Enclosure with flanged cover in cast iron

## Description:

The ASM/CI range comprises of three flameproof enclosures manufactured from cast iron. Enclosure bodies are fitted with flat hinged cover for mounting of operators or viewing windows as required.

## Application:

ASM/CI enclosures can be customized to suit the needs of your specification. Typical applications are terminal junction boxes, control junction boxes and engineered solutions. Many safe area components can be installed inside the enclosures.

## Materials:

Body: Cast iron.  
Screws: Stainless steel.  
For details see data tables overleaf.

## Certification characteristics:

Marking to 94/9/EC: II 2GD  
Zones: 1 – 21 – 2 – 22

For type of protection, certificates, ambient temperature ranges and ingress protection please see data tables overleaf.

## Threads:

Metric threaded.

## Inhibiting treatments:

Zinc rich epoxy powder primer plus epoxy powder top coat black.

## Features:

Enclosure cover: hinged non-detachable  
Mounting: 2 x fabricated stainless steel mounting straps.

## Drawing ASM

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension.
- C - Maximum external dimension.
- D - Internal dimension.
- E - Internal dimension.
- F - Internal depth.
- G - Fixing holes wheel base.
- H - Fixing holes wheel base.
- J - Fixing holes diameter.
- [A] - Entry face.
- [B] - Entry face.

For details see Dimensions Data Table.

## Enclosure types:

For drawing references, dimensions [mm] and approx. weight [kg] see Dimensions Data Table.

Type B - ASM130

Type C - ASM150

Type D - ASM170

Release date 2013-03-20 - A0

## ASM/CI - Dimensions Data Table

## SD RANGE AND SF RANGE

Switch disconnectors and fused switch disconnectors  
manufactured in cast iron, aluminium or stainless steel

► P. 35-43

## DOL RANGE AND DOLSD RANGE

Direct online motor starters with or without switch disconnectors  
manufactured in cast iron, aluminium or stainless steel

► P. 47-55

## SDS RANGE

Star-delta motor starters manufactured in cast iron,  
aluminium or stainless steel

► P. 57-59

## Description:

The SD range of switch disconnectors and SF range of fused switch disconnectors are safely protected in flameproof enclosures. Versions are available with various switching currents and pole numbers as well as several fused variants.

## Application:

The SD and SF ranges of switch disconnectors are designed for safe operation of high-power electrical circuits in gas or dust explosion hazardous areas.

## Materials:

Body: Cast iron, aluminium and stainless steel.  
Screws: Stainless steel.  
For details see data tables overleaf.

## Certification characteristics:

Marking to 94/9/EC: II 2GD  
Zones: 1 – 21 – 2 – 22

For type of protection, certificates, ambient temperature ranges and ingress protection please see data tables overleaf.

## Threads:

Metric threaded, for details see Mechanical Specification.

## Inhibiting treatments:

Zinc rich epoxy powder primer plus epoxy powder top coat black.

## Features:

Labeling: OFF – ON  
Operator lock: Padlockable in OFF position  
Enclosure cover: hinged non-detachable  
Mounting: 2 x fabricated stainless steel mounting straps.

## Drawing

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension.
- C - Maximum external dimension.
- D - Fixing holes wheel base.
- E - Fixing holes wheel base.
- F - Cable entry diameter.
- J - Fixing holes diameter.
- [A] - Entry face.
- [B] - Entry face.

For details see Dimensions Data Table.

## Enclosure types:

For drawing references, dimensions [mm] and approx. weight [kg] see Dimensions Data Table.

Auxiliary contacts: 2 x n/o early break

Grounding: Internal & external brass grounding terminals on base and lid

\*1\* Fused Disconnector versions: Fuse holders ASTA type test certified to BS 88: parts 1 & 6  
Fuse breaking capacity 80 kA

## Description:

The DOL range of motor starters and DOLSD range of motor starters with switch disconnectors are safely protected in flame-proof enclosures. They are suitable for Ex e motors. They are available with various contactor ratings and coil voltages.

## Application:

The DOL and DOLSD ranges of motor starters are designed for safe operation of machinery and drives in gas or dust explosion hazardous areas.

## Materials:

Body: Cast iron, aluminium and stainless steel.  
Screws: Stainless steel.  
For details see data tables overleaf.

## Certification characteristics:

Marking to 94/9/EC: II 2GD  
Zones: 1 – 21 – 2 – 22

For type of protection, certificates, ambient temperature ranges and ingress protection please see data tables overleaf.

## Threads:

Metric threaded, for details see Mechanical Specification.

## Inhibiting treatments:

Zinc rich epoxy powder primer plus epoxy powder top coat black.

## Features:

Labeling: OFF – ON (DOLSD range only)  
Operator lock: Padlockable in OFF position (DOLSD range only)  
Enclosure cover: hinged non-detachable  
Mounting: 2 x fabricated stainless steel mounting straps.

## Enclosure types:

For drawing references, dimensions [mm] and approx. weight [kg] see Dimensions Data Table.

## Drawing DOL

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension.
- C - Maximum external dimension.
- D - Fixing holes wheel base.
- E - Fixing holes wheel base.
- F - Cable entry diameter.
- J - Fixing holes diameter.
- [A] - Entry face.
- [B] - Entry face.

For details see Dimensions Data Table.

Release date 2013-03-20 - A0

- 3.2 -40 ... 55 °C (-40 ... 131 °F)

### IECEX approval

- 4.1 IECEX SIR 08.0056X
- 4.2 IECEX SIR 08.0057X
- 4.3 IECEX SIR 08.0066X
- 4.4 IECEX SIR 08.0055

### GOST-R approval

- 5.1 GOST-R B01008

Cross-references to product type please see table below

\*1\* Seal:

1 - Seal by grease

2 - One piece closed cell neoprene

## Description:

The SDS range of star delta motor starters are safely protected in flameproof enclosures. They are suitable for Ex e motors and available with various contactor ratings and coil voltages.

## Application:

The SDS range of motor starters is designed for safe operation of machinery and drives in gas or dust explosion hazardous areas.

## Materials:

Body: Cast iron, aluminium and stainless steel.  
Screws: Stainless steel.  
For details see data tables overleaf.

## Certification characteristics:

Marking to 94/9/EC: II 2GD  
Zones: 1 – 21 – 2 – 22

For type of protection, certificates and ambient temperature range please see certification characteristics table overleaf.

## Threads:

Metric threaded, for details see Mechanical Specification.

## Inhibiting treatments:

Zinc rich epoxy powder primer plus epoxy powder top coat black.

## Features:

Enclosure cover: hinged non-detachable  
Mounting: 2 x fabricated stainless steel mounting straps.

## Mechanical Specification:

For drawing references, dimensions [mm] and approx. weight [kg] see Dimensions Data Table.

Cable entries (dimension F):

Face [A]: 1 x M25  
Face [B]: 1 x M20, 2 x M25  
Cover fixing screws: M8 stainless steel  
Ingress protection to EN60529: IP66  
Seal: One piece closed cell neoprene.

## Description:

The GUB enclosures are made of aluminium alloy, square shaped and have a blind threaded cover. Please refer to the products GUB/W, GUB/WE and GUB/E showing these enclosures with a port-hole and / or an extension.

## Application:

The enclosures are suitable to contain terminals, contactors, switches, transformers, capacitors, PLC and other electric, electronic equipment and intrinsic safety devices.

## Materials:

Body, cover and extension: copper free aluminium alloy.  
Screws: stainless steel.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIC Gb / Ex tb IIIC Db  
II 2GD Ex d [i. G.] IIC T6 Gb / Ex tb [i.D] IIIC T85.°C Db.  
Class of Temperature: T6/T85 °C → T3/T200 °C.  
Protection Degree: IP65 / IP67\*.  
Certificate: INERIS 10ATEX0036.  
Ambient Temp.: -50 °C / +60 °C (-20 / +40 / +50 / +55 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).  
Metric x 1.5 (ISO 261).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## On request:

\*IP67 protection with o-ring.  
Galvanized steel equipment plate.  
Pushbuttons, pilot light, selector switches.  
Breathing / draining valve.  
Wiring.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Other type of threads [ISO7/1 (UNI6125), PG (DIN 40430)].  
Cable glands for armoured or non armoured cable.

- D - Internal dimension.
- E - Internal depth.
- Ø F - Body access diameter.
- G - Fixing holes wheel base.
- H - Fixing holes wheel base.
- Ø I - Fixing holes diameter.

## Grounding:

External: M6 grounding point (GUB complete serie).  
Internal: M5 grounding point (GUBØØ → GUB 3L).  
M6 grounding point (GUB 4 → GUB 5).

## GUB - Data Table

Dimensions [mm] and approx. Weight [Kg]

Type	Dimensions						Fixing			Weight
	External			Internal			G	H	Ø I	
	A	B	Ø C	D	E	Ø F				
GUB 00	119	137	112	92	98	97	145	95	2 x 8	2
GUB 0	150	150	136	125	115	114	178	125	2 x 8	3,5
GUB 0H	150	190	136	125	152	114	178	125	2 x 8	4,5
GUB 1	200	160	189	170	112	163	228	178	2 x 10	6,4
GUB 1H	200	200	189	170	152	163	228	178	2 x 10	7,6
GUB 1PF	176	139	170	150	105	147	196	154	2 x 10	6,4
GUB 2	250	160	231	225	116	206	275	232	4 x 10	8,5
GUB 3	250	205	231	225	158	206	285	228	4 x 10	10,7
GUB 3L	360	245	348	325	185	320	395	318	4 x 10	21
GUB 4	450	305	437	410	230	406	485	410	4 x 10	42
GUB 4A	450	235	437	410	160	406	485	410	4 x 10	37
GUB 5	550	360	536	510	270	504	595	513	4 x 10	60,5

Note: - dimensions can slightly differ due to casting model tolerances, - all enclosures are available with o-ring for IP67 protection degree  
 - GUB 5 not available with minimum ambient temperature: -50 °C, - till GUB1PF, the enclosures have only two fixing brackets.

## GUB - Drilling Table

## Description:

The GUB/W enclosures are made of aluminium alloy, square shaped and complete with a threaded cover with circular port-hole (W) for visualization.

## Application:

The enclosures are suitable to contain terminals, contactors, switches, transformers, capacitors, PLC and other electric, electronic equipment and intrinsic safety devices.

## Materials:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.  
Porthole: thermo-resistant tempered glass.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIC Gb / Ex tb IIIC Db  
II 2GD Ex d [i. G.] IIC T6 Gb / Ex tb [i.D] IIIC T85°C Db.  
Class of Temperature: T6/T85 °C → T3/T200 °C.  
Protection Degree: IP65 / IP67\*.  
Certificate: INERIS 10ATEX0036.  
Ambient Temp.: -50 °C / +60 °C (-20 / +40 / +50 / +55 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).  
Metric x 1.5 (ISO 261).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## On request:

\*IP67 protection with o-ring.  
Galvanized steel equipment plate.  
Pushbuttons, pilot light, selector switches.  
Breathing / draining valve.  
Wiring.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Other type of threads [ISO7/1 (UNI6125), PG (DIN 40430)].  
Cable glands for armoured or non armoured cable.

## Drawing GUB/W

## Legend:

## GUB - Mounting Plates Drawing in galvanized steel

Note: the positioning of the mounting plate reported here above is purely as an example, the location of the earth screw depends on the type of enclosure.

Release date 2011-01-24 – Updated 2013-04-19 - A4

## Description:

The GUB/E enclosures are made of aluminium alloy, square shaped and complete with an extension (E) and a blind threaded cover. Please refer to the datasheets of our products GUB/WE showing this enclosure with a cover with a port-hole.

## Application:

The enclosures are suitable to contain terminals, contactors, switches, transformers, capacitors, PLC and other electric, electronic equipment and intrinsic safety devices.

## Materials:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIC Gb / Ex tb IIIC Db  
II 2GD Ex d [i. G.] IIC T6 Gb / Ex tb [i.D] IIIC T85 °C Db.  
Class of Temperature: T6/T85 °C → T3/T200 °C.  
Protection Degree: IP65 / IP67\*.  
Certificate: INERIS 10ATEX0036.  
Ambient Temperature: -50 °C / +60 °C (-20 / +40 / +50 / +55 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).  
Metric x 1.5 (ISO 261).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## On request:

\*IP67 protection with o-ring.  
Galvanized steel equipment plate.  
Superior circular plate.  
Pushbuttons, pilot light, selector switches.  
Breathing / draining valve.  
Wiring.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Other type of threads [ISO7/1 (UNI6125), PG (DIN 40430)].  
Cable glands for armoured or non armoured cable.

## Drawing GUB/E

 Protection Degree: IP65 / IP67\*.  
 Certificate: INERIS 10ATEX0036.  
 Ambient Temp.: -50 °C / +60 °C (-20 / +40 / +50 / +55 °C).  
 Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).  
 Metric x 1.5 (ISO 261).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## On request:

\*IP67 protection with o-ring.  
 Galvanized steel equipment plate.  
 Superior circular plate.  
 Pushbuttons, pilot light, selector switches.  
 Breathing / draining valve.  
 Wiring.  
 Other epoxy painting colours different from the standards.  
 Special inhibiting treatment.  
 Other type of threads [ISO7/1 (UNI6125), PG (DIN 40430)].  
 Cable glands for armoured or non armoured cable.

## Drawing GUB/WE

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension with cover.
- C - Internal dimension.
- Ø D - Extension access diameter.
- E - Internal depth.
- Ø F - Port-hole diameter.
- G - Fixing holes wheel base.
- H - Fixing holes wheel base.
- I - Fixing holes diameter.

## Grounding:

External: M6 grounding point (GUB complete serie).  
 Internal: M5 grounding point (GUBØ → GUB 3L).  
 M6 grounding point (GUB 4, GUB 4A).

## GUB/WE - Data Table

Dimensions [mm] and approx. Weight [Kg]

Type	Dimensions					Port-hole Ø F	Fixing			Weight
	External		Internal				G	H	Ø I	
	A	B	C	Ø D	E					
GUB/WE 0	150	240	125	102	200	79	178	125	2 x 8	3,5
GUB/WE 0H	150	280	125	102	235	79	178	125	2 x 8	5
GUB/WE 1	200	280	170	146	238	121	228	178	2 x 10	9
GUB/WE 1H	200	320	170	146	277	121	228	178	2 x 10	10,3
GUB/WE 2	250	320	225	190	277	160	275	232	4 x 10	12,5
GUB/WE 3	250	365	225	190	318	160	285	228	4 x 10	15,5
GUB/WE B3L	360	390	325	300	330	260	395	318	4 x 10	33,5
GUB/WE 3L	360	480	325	300	420	260	395	318	4 x 10	36
GUB/WE 4	450	530	410	386	440	260	485	410	4 x 10	61
GUB/WE 4A	450	460	410	386	375	260	485	410	4 x 10	56

- Note:
- dimensions can slightly differ due to casting model tolerances
  - all enclosures are available with o-ring for IP67 protection degree
  - till GUB/WE1H, the enclosures have only two fixing brackets.

## GUB/WE - Drilling Table

Type	Body (holes for each side)								
	1/2"	3/4"	1"	1.1/4"	1.1/2"	2"	2.1/2"	3"	4"
GUB/WE 0	6	5	3	2	2	1	1	-	-

GUB/WE 4	PPG 4	20	20	140	345	360	360	7 (3)	2
GUB/WE 4A	PPG 4A	55	55	140	345	360	360	7 (3)	2

- Notes: (1): Th = Thickness [mm]  
 (2): 2 fixing holes, 1 upper left side, 1 lower right side  
 (3): 4 fixing holes.

## GUB - Mounting Plates Drawing in galvanized steel

Note: the positioning of the mounting plate reported here above is purely as an example, the location of the earth screw depends on the type of enclosure.

## Description:

The GUB/X enclosures are made of stainless steel, square shaped and have a blind threaded cover.

## Application:

The enclosures are suitable to contain terminals, contactors, switches, transformers, capacitors, PLC and other electric, electronic equipment and intrinsic safety devices.

## Materials:

Body and cover: stainless steel AISI 316L.

Screws: stainless steel.

Welded brackets: stainless steel.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIC Gb / Ex tb IIIC Db  
II 2GD Ex d [i. G.] IIC T6 Gb / Ex tb [i.D] IIIC T85 °C Db.

Class of Temperature: T6/T85 °C → T3/T200 °C.

Protection Degree: IP65 / IP67\*.

Certificate: INERIS 10ATEX0036.

Ambient Temperature: -50 °C / +60 °C (-20 / +40 / +50 / +55 °C).

Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).

Metric x 1.5 (ISO 261).

## On request:

AISI 304 version.

\*IP67 protection with o-ring.

Galvanized or stainless steel equipment plate.

Pushbuttons, pilot light, selector switches.

Breathing / draining valve.

Wiring.

Special inhibiting treatment.

Cable glands for armoured or non armoured cable.

## Drawing GUB/X

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension with cover.
- Ø C - Cover external diameter.
- D - Internal dimension.
- Ø E - Body access diameter.
- F - Internal depth.
- G - Fixing holes wheel base.
- H - Fixing holes wheel base.
- Ø I - Fixing hole diameter.

## Grounding:

External: M6 grounding point (GUB complete serie).

Internal: M5 grounding point (GUBØØ → GUB 3L).

M6 grounding point (GUB 4, GUB 4A).

## GUB/X - Data Table

Dimensions [mm] and approx. Weight [Kg]

Type	Dimensions						Fixing			Weight
	External			Internal			G	H	Ø I	
	A	B	Ø C	D	Ø E	F				
GUB/X 00	118	134	112	92	94	98	145	95	2x8	7
GUB/X 0	150	150	136	125	114	115	178	125	2x8	12
GUB/X 0H	150	190	136	125	114	152	178	125	2x8	16
GUB/X 1	200	160	189	173	159	112	228	178	2x10	23
GUB/X 1H	200	200	189	173	159	152	228	178	2x10	27
GUB/X 1PF	176	139	170	150	147	105	196	154	2x11	23
GUB/X 2	252	185	235	225	200	116	285	228	4x10	30
GUB/X 3	258	227	235	225	200	158	285	228	4x10	37
GUB/X 3L	360	245	348	325	320	185	395	318	4x10	91
GUB/X 4A	450	249	437	410	400	160	485	410	4x14	125
GUB/X 4	450	319	437	410	400	260	485	410	4x14	150

Note: - all enclosures are available with o-ring for IP67 protection degree, - till GUB/X 1PF, the enclosures have only two fixing brackets  
 - for cover handling: welded tabs are available till size GUB/X1PF and handles for the remaining sizes.

## GUB/X - Drilling Table

Type	Cover	Body (holes for each side)								
	1/4"	1/2"	3/4"	1"	1.1/4"	1.1/2"	2"	2.1/2"	3"	4"

## DMT 2B - Electronic earthing system (Resistive and capacitive)

### Description:

The DMT 2B Electronic Earthing System is composed of one IIB aluminium alloy enclosure (EJB 8A type) inside which there is an electronic resistance/capacity device and externally a support hook, an earthing clamp, complete with 8 m of cable, to measure and check the continuity towards the earth, aiming to eliminate the electrostatic charges.

The DMT 2B has (on the enclosure cover) a green and a red pilot light as agreement or refuse to proceed.

Its modularity by jumpers or trimmers placed on the electronic card, allows the selection of different capacity or resistance sensibility levels.

### Application:

The DMT 2B electronic earthing system is used during filling and emptying operations of tankers, drums, railway trucks for ambient with presence of IIB gas (as. Ethylene).

### Materials:

External enclosure: copper free aluminium alloy.

Screws: stainless steel.

Standard cable: 8 m 3 x 3 mm<sup>2</sup> hydrocarbon resistant.

Clamp: aluminium alloy with phosphor bronze internal contact components and handle in thermoplastic insulator material.

### Certification characteristics:

Type of Protection: II 2GD Ex d [ia Ga] IIB T6 Gb  
Ex tb [iaD] IIIB T85 °C Db.

Class of Temperature: T6 / T85 °C.

Protection Degree: IP66 / IP67\*.

Certificate: INERIS 10ATEX0035X.

Ambient Temperature: -20 °C / +40 °C.

Zones: 1 – 21 – 2 – 22.

### Threads:

NPT (ANSI B1.20.1).

Metric x 1.5 (ISO 261).

### Drawing DMT 2B

### Legend:

A - Maximum external dimension.

B - Maximum external dimension.

C - Maximum external dimension.

### Grounding:

External: M6 grounding point.

Internal: M5 grounding point.

### Inhibiting treatments:

Standard epoxy painting RAL 7005.

### On request:

Stainless steel version AISI 304 or AISI316L.

\*IP67 protection with o-ring.

Stainless steel hinges.

Breathing / draining valve.

Other epoxy painting colours different from the standards.

Special inhibiting treatment.

Other type of threads [ISO7/1 (UNI6125), PG (DIN 40430)].

Cable glands for armoured or non armoured cable.

Other cable length.

Supply Voltage 110 V – 50/60 Hz.

### DMT 2B - Data Table

Dimensions [mm] and approx. Weight [Kg]

Type	Dimensions			Short side	Fixing Long side	Screws	Weight
	A	B	C				
DMT 2B	470	395	215	250	282	4 x M10	20

Notes: 1) Standard rated voltage: 230 V – 50/60 Hz.

2) For complete installation and configuration options ask for specific instruction manual.

3) For enclosure dimensions see EJB data sheet (enclosure type EJB 8A).

4) Standard cable entries available: n. 2 entries Ø 3/4" NPT on bottom side.

# DMT 2C - Electronic earthing system (Resistive and capacitive)

## Description:

The DMT 2C Electronic Earthing System is composed of one IIC aluminium alloy enclosure (GUB 3L type) inside which there is an electronic resistance/ capacity device and externally a support hook, an earthing clamp, complete with 8 m of cable, to measure and check the continuity towards the earth, aiming to eliminate the electrostatic charges.

The DMT 2C has (on the enclosure cover) a green and a red pilot light as agreement or refuse to proceed.

Its modularity by jumpers or trimmers placed on the electronic card, allow the selection of different capacity or resistance sensibility levels.

## Application:

The DMT 2C electronic earthing system is used during filling and emptying operations of tankers, drums, railway trucks for ambient with presence of IIC gas (as. Hydrogen).

## Materials:

External enclosure: copper free aluminium alloy.  
Screws: stainless steel.  
Standard cable: 8 m 3 x 3 mm<sup>2</sup> hydrocarbon resistant.  
Clamp: aluminium alloy with phosphor bronze internal contact components and handle in thermoplastic insulator material.

## Certification characteristics:

Type of Protection: II 2GD Ex d [ia Ga] IIC T6 Gb  
Ex tb [iaD] IIIC T85 °C Db.  
Class of Temperature: T6 / T85 °C.  
Protection Degree: IP65 / IP67\*.  
Certificate: INERIS 10ATEX0036.  
Ambient Temperature: -20 °C / +40 °C.  
Zones: 1 – 21 – 2 – 22.

## Description:

The camera housing GUB/WE-TVCC series is designed to contain modern compact CCTV cameras and is mounted on an internal rail allowing the regulation of the position axially. The enclosures are made of aluminium alloy, equipped with an anti-condense resistor (115/230 Vac - 50/60 Hz) and they will be delivered with an external protection roof and a support for wall mounting.

## Application:

The camera housings allow the installation of the most diffused types of cameras for television at closed circuit in places where there is danger of explosion.

## Materials:

Body and cover: copper free aluminium alloy.  
 Port-hole: thermo-resistant tempered glass.  
 Screws: stainless steel.  
 Protection roof: aluminium plate.  
 Articulated support: aluminium alloy.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIC Gb / Ex tb IIIC Db.  
 Class of Temperature: T6/T85 °C → T3/T200 °C.  
 Protection Degree: IP67.  
 Certificate: INERIS 10ATEX0036.  
 Ambient Temperature: -50 °C / +60 °C (-20 / +40 °C).  
 Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).  
 Metric x 1.5 (ISO 261).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.  
 Arm and protection roof: epoxy painting RAL 9001.

## On request:

Internal camera CCTV.  
 Breathing / draining valve.  
 Different number / diameter / position of cable entries.  
 Wiring.  
 Other epoxy painting colours different by the standards.  
 Special inhibiting treatment.  
 Other type of threads [ISO7/1 (UNI6125), PG (DIN 40430)].  
 Cable glands for armoured or non armoured cable.

## Drawing GUB/WE-TVCC

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension.
- Ø C - Extension access diameter.
- G - Support fixing holes wheel base.
- H - Support fixing holes wheel base.
- Ø I - Support fixing holes diameter.
- Ø M - Port-hole diameter.

## Grounding:

External: M6 grounding point.  
 Internal: M5 grounding point.

## GUB/WE - TVCC - Data Table

Dimensions [mm] and approx. Weight [Kg]

Type	Dimensions				Support fixing			Weight
	A	B	Ø C	Ø M	G	H	Ø I	
GUB/WE 0H - TVCC	180	300	102	79	40	85	4 x 8	5,5
GUB/WE 1H - TVCC	230	340	148	121	40	85	4 x 8	12,7
GUB/WE 3 - TVCC	280	390	192	160	40	85	4 x 8	18,5

- Note: - dimensions can slightly differ due to casting model tolerances.  
 - all the GUB-TVCC are without fixing brackets.  
 - standard cables entries: n. 2 with Ø ½" NPT on the bottom.  
 - for enclosure dimensions see GUB/WE data sheet.

## GUB/WE - TVCC Drilling Table

Type	1/2"	3/4"	1"	1.¼"	1.½"
GUB/WE 0H - TVCC	2	2	1	-	-
GUB/WE 1H - TVCC	2	2	2	-	-
GUB/WE 3 - TVCC	10	3	2	-	-

- Note: - available cable entry with 1/4" and 3/8" diameter (or other equivalent thread type) with the same maximum number of 1/2" holes.  
 - the cable entraies with Metric (x 1.5) threads are equivalent in number with the inches threads listed in the above table.  
 The comparison between Metric (x 1.5) and inches is according to the following table.

## GUB - Threads Comparison Table

Inches	¼"	⅜"	½"	¾"	1"	1 ¼"	1 ½"	2"	2 ½"	3"	4"
Metric (x 1.5)	M12	M16	M20	M25	M32	M40/M42	M50	M63	M75	M85	n.a.

# EFDC - 1 row pushbutton box

## Description:

The EFDC pushbutton boxes are made of aluminium alloy. They are rectangular shaped and complete with a flat joint cover, which is fixed by hexagonal head screws and two threaded holes for cable entry.

They are available in different configurations with pushbuttons, pilot lights (1" or 1/2"), switches and a potentiometer is installed.

## Application:

The EFDC is designed to contain pushbuttons, pilot lights, selector switches, potentiometers combined in several configurations and as command pushbutton.

## Material:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.

## Certification characteristics:

Type of Protection: II 2GD EEx d IIB, II 2G Ex d IIB+H<sub>2</sub>.  
Class of Temperature: T6 / T85 °C → T4 / T135 °C.  
Protection Degree: IP65.  
Certificate: INERIS 04ATEX0045.  
Ambient Temperature: -20 / +60 °C (+40 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## On request:

Pushbuttons, pilot lights, selector switches.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Cable glands for armoured or non armoured cable.  
Other type of threads [Metric x 1.5 (ISO 261), ISO7/1 (UNI6125)].

## Drawing EFDC

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension.
- C - Maximum external dimension.
- D - Fixing holes wheel base.
- E - Fixing holes wheel base.
- Ø F - Cable entry dimension.
- Ø I - Fixing holes diameter.
- EFDC2 → EFDC6 - Ref. 2 and 3: fixing holes.
- EFDC8, EFDC11 - Ref. 1, 3 and 4: fixing holes  
Ref. 2: grounding point.

## Grounding:

Internal and external: M5 grounding point.

## EFDC - Data Table

Dimensions [mm] and approx Weight [kg]

Type	Dimensions			Entries Ø F [NPT]	D	Fixation		Weight
	A	B	C			E	Ø I	
EFDC 2	143	113	87	2x3/4"	125	55	2x7	1.45
EFDC 3	196	115	90	2x3/4"	172	93	2x7	1.9
EFDC 4	239	108	103	2x3/4"	227	48	2x7	2.65
EFDC 6	336	108	103	2x3/4"	340	40	2x7	3.4
EFDC 8	412	108	103	2x1"	400	44	4x7	4.3
EFDC 11	525	108	103	2x1"	510	44	4x7	11.4

- Note: 1) Maximum lamp voltage and power: 240 V – 5 W.  
2) For IIB+H<sub>2</sub> version, letter "-H" to be added after "EFDC" (e.g. EFDC-H).  
3) Pushbutton suffix identifies the max. number of 1/2" components (pushbutton and pilot light); other components (potentiometer, switches, ...) may require more than one place.  
4) Dimensions can slightly differ due to casting model tolerance.

## EFD21 - Switch/Selector switch box

### Description:

The EFD21 enclosure is made of aluminium alloy. It has a rectangular base and a cylindrical joint cover and is equipped with a switch, a selector switch or a deviator switch. It is usually supplied with an engraved circular label and an electrical part (rear cover type) too.

### Application:

The EFD21 switch is designed for the control and signalling for electrical circuits. Its mounting is very easy thanks to the small dimensions.

### Material:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.  
External handle: plastic material.

### Features:

Type of Protection: II 2GD EEx d IIC.  
Class of Temperature: T6 / T85 °C, T5 / T100 °C.  
Protection Degree: IP65 / IP67\*.  
Certificate: INERIS 05ATEX0030.  
Ambient Temp.: -20 / +60 °C (+40 °C).  
Zones: 1 – 21 – 2 – 22.

### Threads:

NPT (ANSI B1.20.1).

### Inhibiting treatments:

Standard epoxy painting RAL 7005.

### Drawing EFD21

### Legend:

A - Maximum external dimension.  
B - Maximum external dimension.  
C - Maximum external dimension with external handle.  
D - Fixing holes wheel base.  
E - Fixing holes wheel base.  
Ø F - Cable entry diameter.  
Ø I - Fixing holes diameter.

### Grounding:

External: M6 grounding point.  
Internal: M5 grounding point.

### On request:

\*IP67 protection with o-ring.  
Special contacts diagram.  
Special selector with spring return.  
External metallic handle.  
Padlockable version.  
External protection guard.  
Different configuration of electric contacts.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Other type of threads [ISO7/1 (UNI6125), Metric x 1.5 (ISO 261)].  
Cable glands for armoured or non armoured cable.

## EFD21 - Data Table

# EFD21-LP - Pushbutton box with 1 or 2 components

## Description:

The EFD21-LP enclosure is made of aluminium alloy, it has a rectangular base and a cylindrical joint cover. It is available in different configurations with either one 1" component installed, or a pushbutton or a pilot light, or with two ½" components installed, being 2 pushbuttons, 2 pilot lights or 1 pushbutton and 1 pilot light.

Mounting is easy thanks to the small dimensions.

## Application:

The EFD21-LP pushbutton is designed for the control and signalling for electrical circuits.

## Material:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.

## Certification characteristics:

Type of Protection: II 2GD EEx d IIC.  
Class of Temperature: T6 / T85 °C, T5 / T100 °C.  
Protection Degree: IP65 / IP67\*.  
Certificate: INERIS 05ATEX0030.  
Ambient Temperature: -20 / +60 °C (+40 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## Drawing EFD21-LP

## Legend:

A - Maximum external dimension.  
B - Maximum external dimension.  
C - Maximum external dimension.  
D - Fixing holes wheelbase.  
E - Fixing holes wheelbase.  
Ø F - Cable entry diameter.  
Ø I - Fixing holes diameter.

## Grounding:

External: M6 grounding point.  
Internal: M5 grounding point.

## On request:

\*IP67 only with pilot lights.  
Lamp or led with different voltage.  
Different configuration and colours of pushbuttons and pilot lights.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Other type of threads [ISO7/1 (UNI6125), Metric x 1.5 (ISO 261)].  
Cable glands for armoured or non armoured cable.

## EFD21-LP - Data Table

Dimensions [mm] and approx. Weight [kg]

Type	Description	Contact	Lampholder	Dimensions			Entries Ø F [NPT]	Fixation			Weight
				A	B	C		D	E	Ø I	
EFD21/2L	n. 2 Pilot lights ½"	-	Ba9s	125	80	115	2 x 3/4"	102	58	3x6	1,1
EFD21/1L-1P	P. light ½" + P. button ½"	N.O or N.C.	Ba9s	125	80	115	2 x 3/4"	102	58	3x6	1,1

# EFD21-F - Emergency mushroom pushbutton box

## Description:

The EFD21-F enclosure is made of aluminium alloy. It has a rectangular base and a cylindrical joint cover and is equipped with a red emergency mushroom pushbutton (RPFB) with pushing lock function and twist reset, circular label with yellow background and is usually supplied with electric contact.

## Application:

The EFD21-F Emergency Mushroom Pushbutton is designed for the emergency shutdown of electric circuits.

## Material:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.  
External ring nut: nickel plated brass.  
Actuator: plastic material.

## Certification characteristics:

Type of Protection: II 2GD EEx d IIC.  
Class of Temperature: T6 / T85 °C, T5 / T100 °C.  
Protection Degree: IP65.  
Certificate: INERIS 05ATEX0030.  
Ambient Temp.: -20 / +60 °C (+40 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.

## Drawing EFD21-F

## Legend:

A - Maximum external dimension.  
B - Maximum external dimension.  
C - Maximum external dimension.  
D - Fixing holes wheelbase.  
E - Fixing holes wheelbase.  
Ø F - Cable entry diameter.  
Ø I - Fixing holes diameter.

## Grounding:

External: M6 grounding point.  
Internal: M5 grounding point.

## On request:

Different configuration of electric contacts.  
Key mushroom pushbutton (red or black).  
Mushroom pushbutton without lock function.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Other texts of labels (as "STOP – EMERGENCY").  
External protection guard.  
Other type of threads [ISO7/1 (UNI6125), Metric x1.5 (ISO 261)].  
Cable glands for armoured or non armoured cable.

## EFD21-F - Data Table

Dimensions [mm] and approx. Weight [kg]

Type	Description	Contact	Dimensions			Entries Ø F [NPT]	Fixation			Weight
			A	B	C		D	E	Ø I	
EFD21-FB.01	Emergency Mushroom Pushbutton with mechanical block	1NC	125	80	155	2 x 3/4"	102	58	3x6	1,7

# EFD21-VR - Emergency mushroom pushbutton box with breaking glass

## Description:

The EFD21-VR enclosure is made of aluminium alloy. It has a rectangular base and a cylindrical joint cover with breaking glass in case of emergency. The product comes complete with ½" red push button, circular label with red background, electric contact, a hammer and a chain.

## Application:

The EFD21-VR emergency mushroom pushbutton with breaking glass is designed for special application in the emergency shutdown of electric circuits.

## Material:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.  
Glass: tempered glass.

## Certification characteristics:

Type of Protection: II 2GD EEx d IIC.  
Class of Temperature: T6 / T85 °C, T5 / T100 °C.  
Protection Degree: IP65.  
Certificate: INERIS 05ATEX0030.  
Ambient Temp.: -20 / +60 °C (+40 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).

## Inhibiting treatments:

Standard epoxy painting RAL 7005.  
Red ring-cover (RAL3000).

## Drawing EFD21-VR

## Legend:

A - Maximum external dimension.  
B - Maximum external dimension.  
C - Maximum external dimension.  
D - Fixing holes wheelbase.  
E - Fixing holes wheelbase.  
Ø F - Cable entry diameter.  
Ø I - Fixing holes diameter.

## Grounding:

External: M6 grounding point.  
Internal: M5 grounding point.

## On request:

“Pressing” type function or “release” type function.  
Other epoxy painting colours different from the standards.  
Special inhibiting treatment.  
Other type of threads [ISO7/1 (UNI6125), Metric x 1.5 (ISO 261)].  
Cable glands for armoured or non armoured cable.

# E110 - Ex d IIC 20A General Purpose Switch

## Description:

The E110\*/CI series of flameproof general purpose switches is made of cast iron. It features a shrouded padlockable operator unit and is available as OFF-ON and changeover switch in various configurations.

## Application:

The E110\* switches are designed for control of electrical circuits in explosion hazardous areas.

## Material:

Body: cast iron.  
Screws: stainless steel.  
Plastic Parts: nylon.

## Certification characteristics:

Type of Protection: II 2 GD Ex d IIC / Ex tb IIIC.  
Class of Temperature: T6 / T80 °C, T5 / T95 °C.  
Protection Degree: IP65.  
Certificate: SIRA 02 ATEX 1307.  
Further certifications see below.  
Ambient Temperature: -40 ... 55 °C (-40 ... 131 °F).  
Zones: 1 – 21 – 2 – 22.

## Threads:

Metric threaded M20 at entry face A and B.

## Inhibiting treatments:

Zinc rich epoxy powder primer plus epoxy powder top coat black.

# E112 - Ex d IIC Fuse Unit

## Description:

The E112\*/CI series of flameproof local fuse units is made of cast iron. It is available with several fuse ratings and configurations.

Fuse type: BS88 industrial pullcap.

## Application:

The E112\* fuse units are designed for overload protection of electrical circuits in explosion hazardous areas.

## Material:

Body: cast iron.  
Screws: stainless steel.

## Certification characteristics:

Type of Protection: II 2 GD Ex d IIC / Ex tb IIIC.

# E114 - Ex d IIC Single and Twin Indicator Lights

## Description:

The E114\*/CI series of flameproof indicator lights is made of cast iron. Variants with either one or two LEDs are available, each with various lens colors.

## Application:

The E114\* indicator lights are designed for equipment monitoring and optical signaling in explosion hazardous areas.

## Material:

Body: cast iron.  
Screws: stainless steel.

## Drawing:

## Certification characteristics:

Type of Protection: II 2 GD Ex d IIC / Ex tb IIIC.  
Class of Temperature: T6 / T80 °C, T5 / T95 °C.  
Protection Degree: IP65.  
Certificate: SIRA 02 ATEX 1310.  
Further certifications see below.  
Ambient Temperature: -40 ... 55 °C (-40 ... 131 °F).  
Zones: 1 – 21 – 2 – 22.

## Legend:

A - Maximum external dimension.  
B - Maximum external dimension.  
C - Maximum external dimension.  
D - Fixing holes wheelbase.  
E - Fixing holes wheelbase.  
Ø F - Cable entry diameter.  
Ø J - Fixing holes diameter.  
[A] - Entry face.  
[B] - Entry face.

## Threads:

Metric threaded M20 at entry face A and B.

## Inhibiting treatments:

Zinc rich epoxy powder primer plus epoxy powder top coat black.

## E114 - Data Table

Dimensions [mm] and approx. Weight [kg]

Type	Number of LED	Lens color	Dimensions			Entries Ø F	Fixation			Weight
			A	B	C		D	E	Ø J

# E116 - Ex d IIC Single and Double Pushbuttons

## Description:

The E116\*/CI series of flameproof pushbutton units is made of cast iron. Variants with either one or two pushbuttons are available, each in various colors. Pushbuttons come in various designs, shrouded or exposed, as well as with latching options.

## Application:

The E116\* pushbuttons are designed for control of instrumentation and electrical circuits in explosion hazardous areas.

## Material:

Body: cast iron.  
Screws: stainless steel.  
Plastic parts: nylon.

## Certification characteristics:

Type of Protection: II 2 GD Ex d IIC / Ex tb IIIC.  
Class of Temperature: T6 / T80 °C, T5 / T95 °C.  
Protection Degree: IP65.  
Certificate: SIRA 02 ATEX 1312.  
Further certifications see below.  
Ambient Temperature: -40 ... 55 °C (-40 ... 131 °F).  
Zones: 1 – 21 – 2 – 22.

## Threads:

Metric threaded M20 at entry face A and B.

## Inhibiting treatments:

Zinc rich epoxy powder primer plus epoxy powder top coat black.

## Drawing:

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension.
- C - Maximum external dimension.
- D - Fixing holes wheelbase.
- E - Fixing holes wheelbase.

# E116010 - Ex d IIC Single Emergency Stop Pushbutton

## Description:

The E116010/CI series of flameproof emergency stop pushbutton units is made of cast iron. The red mushroom pushbutton is latching with lever release. The contact configuration is 1 NO and 1 NC.

## Application:

The E116010 pushbutton units are designed for emergency stops of machinery and instrumentation in explosion hazardous areas.

## Material:

Body: cast iron.  
Screws: stainless steel.  
Plastic Parts: nylon.

## Certification characteristics:

Type of Protection: II 2 GD Ex d IIC / Ex tb IIIC.  
Class of Temperature: T6 / T80 °C, T5 / T95 °C.  
Protection Degree: IP65.  
Certificate: SIRA 02 ATEX 1312.  
Further certifications see below.  
Ambient Temperature: -40 ... 55 °C (-40 ... 131 °F).  
Zones: 1 – 21 – 2 – 22.

## SMH - Instrument housing

### Description:

The SMH instrument housing is made of aluminium alloy and has a cylindrical body and a screwed cover with circular port-hole.

### Application:

The SMH instrument housing is suitable to contain analogue and digital measurement instruments such as voltmeters, ammeters, speed indicators.

### Material:

Body and cover: copper free aluminium alloy.  
 Port-hole: thermo-resistant tempered glass.  
 Screws: stainless steel.

### Certification characteristics:

Type of Protection: II 2GD Ex d IIC / Ex tD A21  
 II 2GD Ex e II / Ex tD A21.  
 Class of Temperature: T6/T85 °C,  
 T5/T100 °C (only Ex e version).  
 Protection Degree: IP66 / IP67\*.  
 Certificate: INERIS 01ATEX0023.  
 Ambient Temperature: -50 / +60 °C (-20 / +40 °C).  
 Zones: 1 – 21 – 2 – 22.

### Threads:

NPT (ANSI B1.20.1).  
 Metric x 1.5 (ISO 261).

### Inhibiting treatments:

External standard epoxy painting RAL 7005.

### On request:

Stainless steel version AISI 304 or AISI 316L.  
 Support for instrument 72 x 72 (K72).  
 Instrument meter.  
 Version with extension (SMH-E).  
 \*IP67 protection with o-ring.  
 Other epoxy painting colours different from the standards.  
 Special inhibiting treatment.  
 Cable glands for armoured or non armoured cable.

### Drawing SMH

### Legend:

- Ø A - Maximum external diameter.
- B - Maximum external dimension.
- C - Maximum external dimension with cover.
- D - Internal depth.
- Ø E - Port-hole diameter.
- Ø F - Internal diameter.
- Ø G - Cable entry.
- H - Fixing holes wheel base.
- I - Fixing holes wheel base.

### Grounding:

Internal and external: M5 grounding point.

## SMH - Data Table

Dimensions [mm] and approx. Weight [Kg]

Type	Dimensions						Entries (NPT)	Fixing		Weight
	Ø A	B	C	D	Ø E	Ø F	Ø G	H	I	
SMH	136	150	117	98	79	110	2 x 3/4"	130	65	1,6
SMH-E	136	150	221	202	79	110	2 x 3/4"	130	65	2,3

Note: - dimensions can slightly differ due to casting model tolerances.

# SK - Instrument housing for thermocouple / RTD

## Description:

The SK instrument housing is made of aluminium alloy and circular shaped. They have a screwed blind cover and have different configuration for cable entry.

## Application:

The SK instrument housing is suitable to contain thermocouples/RTDs (Resistance Temperature Detectors) or other thermometer elements, electronic transmitters or equivalent devices.

## Materials:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIC / Ex tD A21  
II 2GD Ex e II / Ex tD A21.  
Class of Temperature: T6/T85 °C,  
T5/T100 °C (only Ex e version).  
Protection Degree: IP66 / IP67\*.  
Certificate: INERIS 01ATEX0023.  
Ambient Temperature: -50 / +60 °C (-20 / +40 °C).  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).  
Metric x 1.5 (ISO 261).

## Drawing SK

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension with cover.
- Ø C - External diameter.

## Grounding:

Internal and external: M5 grounding point.

## On request:

- Stainless steel version AISI 304 or AISI 316L.
- Thermocouple.
- \*IP67 protection with o-ring.
- Cover with port-hole.
- Anti loosening cover.
- Fixation brackets.
- External epoxy painting.
- Special inhibiting treatment.
- Cable glands for armoured or non armoured cable.

## SK - Data Table

Dimensions [mm] and approx. Weight [Kg]

	SK/J 26	5	3/4"	100	75	90	0,45

Note: - standard external grounding point close to the lower cable entry.

# SO - Instrument Housing with Port-hole

## Description:

The SO instrument housing is made of aluminium alloy and circular shaped. It has a screwed cover with circular port-hole and has different configuration for cable entry. Please refer to the product SO-E showing this enclosure with extension.

## Application:

The SO instrument housing is suitable to contain signalling/ visualization equipment.

## Material:

Body and cover: copper free aluminium alloy.  
 Port-hole: thermo-resistant tempered glass.  
 Screws: stainless steel.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIC / Ex tD A21  
 II 2GD Ex e II / Ex tD A21.  
 Class of Temperature: T6 / T85 °C,  
 T5 / T100 °C (only Ex e version).  
 Protection Degree: IP66 / IP67\*.  
 Certificate: INERIS 01ATEX0023.  
 Ambient Temperature: -50 / +60 °C (-20 / +40 °C).  
 Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).

## Description:

The FFCM compact limit switch is made of aluminium alloy. It has a screwed blind cover and six types of different external actuators in order to cover various applications.

## Application:

The FFCM limit switch is used to open and/or close an electric circuit after pressure on external actuators. It finds several applications in auxiliary circuits (shutters, fillers, boxing machines, etc.).

## Materials:

Body and cover: copper free aluminium alloy.  
Screws: stainless steel.  
Actuator: plastic material.

## Certification characteristics:

Type of Protection: II 2GD Ex d IIC / Ex tD A21.  
Class of Temperature: T6 / T85 °C.  
Protection Degree: IP65.  
Certificate: INERIS 02ATEX0040.  
Ambient Temp.: -20 / +60 °C.  
Zones: 1 – 21 – 2 – 22.

## Threads:

NPT (ANSI B1.20.1).

## Inhibiting treatments:

Standard epoxy painting RAL 7000.

## On request:

Other epoxy painting colours different by the standards.  
Special inhibiting treatment.  
Other type of threads [ISO7/1 (UNI6125), Metric x 1.5 (ISO 261)].  
Cable glands for armoured or non armoured cable.

## Drawing FFCM

## Legend:

- A - Maximum external dimension.
- B - Maximum external dimension with mounting brackets.
- C - Maximum external dimension with cover.
- D - Fixing holes wheel base.
- E - Fixing holes wheel base.
- Ø F - Cable entry diameter.
- \* see "Data table" for different types of "Head".

## Grounding:

External: M4 grounding point.  
Internal: M3 grounding point.

## FFCM - Data table

Dimensions [mm] and approx. Weight [Kg]

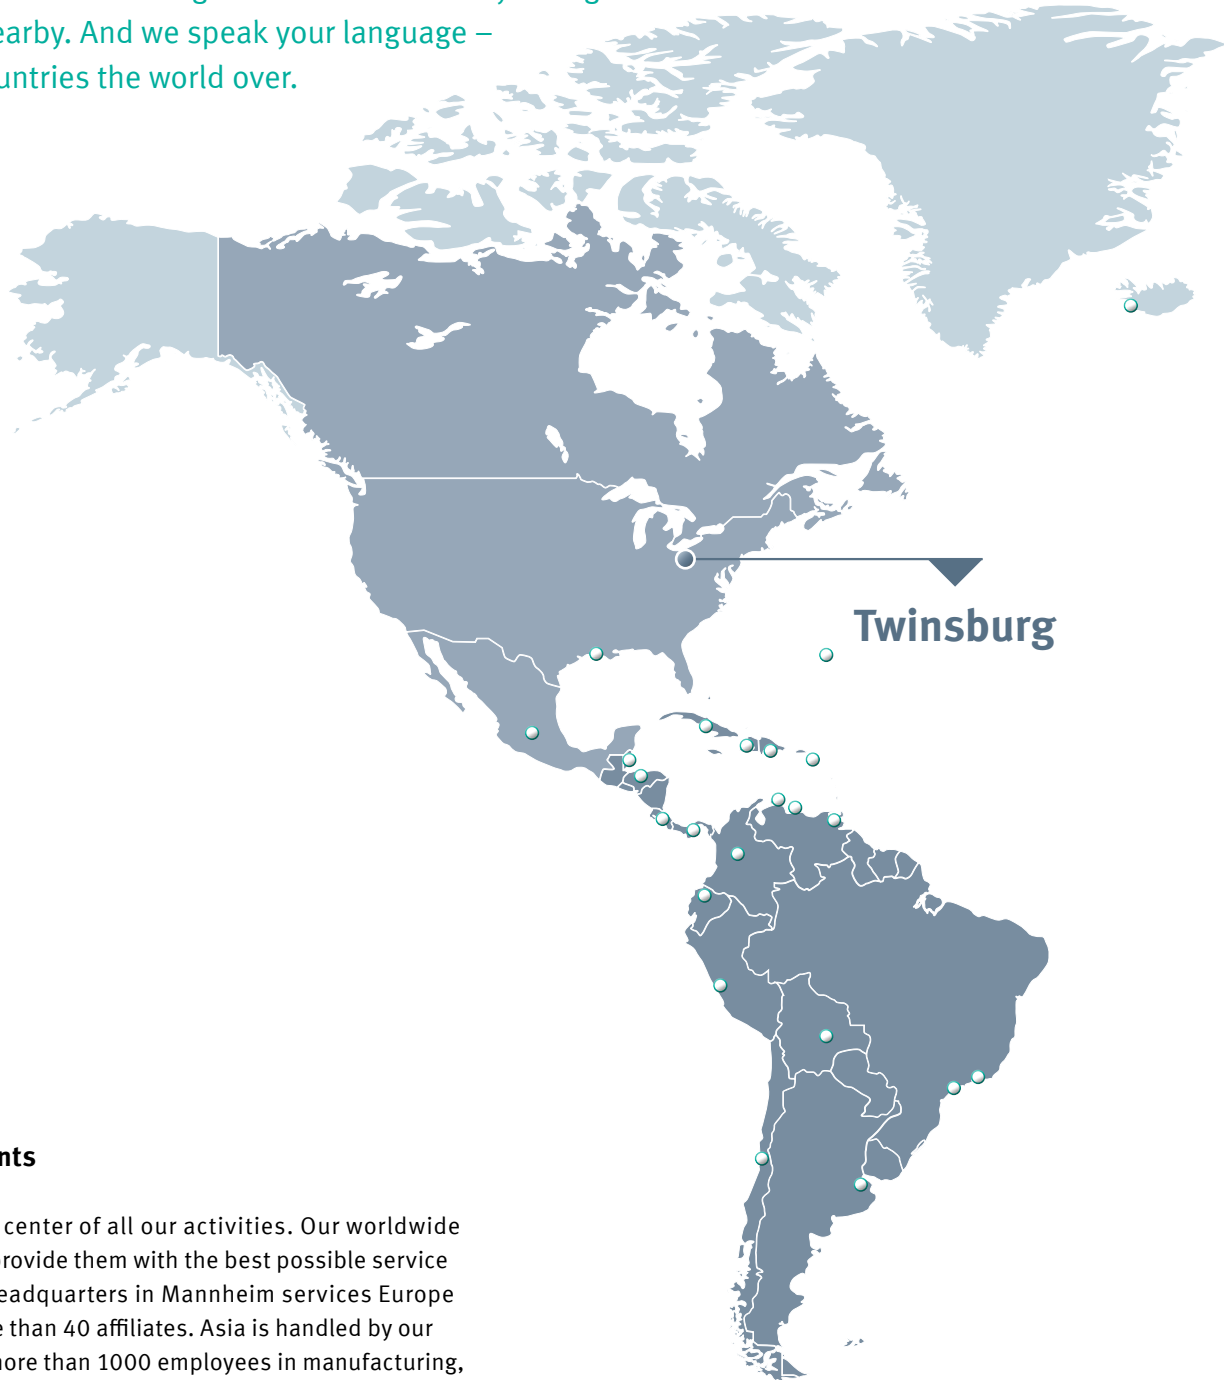

* Head	Type	Single pole contact	Dimensions					Cable entry Ø F [NPT]	Weight
			A	B	C	D	E		
	FFCM/A	1 NO + 1 NC	97	68	57	42	68	1/2"	0,4
	FFCM/F	1 NO + 1 NC	97	68	57	42	68	1/2"	0,4
	FFCM/P	1 NO + 1 NC	97	68	57	42	68	1/2"	0,4
	FFCM/AR	1 NO + 1 NC	97	68	57	42	68	1/2"	0,4
	FFCM/L	1 NO + 1 NC	97	68	57	42	68	1/2"	0,4

Note: 1) FFCM contact 1NO+1NC with positive break (snap action), Max. rated current 10 A according to IEC 337-1 and maximum voltage 600 V.  
2) Maximum section wire: 2.5 mm<sup>2</sup>.

# Staying in touch. The world over.

Good customer relationships need care and attention. They are an indication of genuine interest, trust, and a cooperative spirit: the foundation of Pepperl+Fuchs' strengths. No matter where you might be, we are always nearby. And we speak your language – in more than 140 countries the world over.

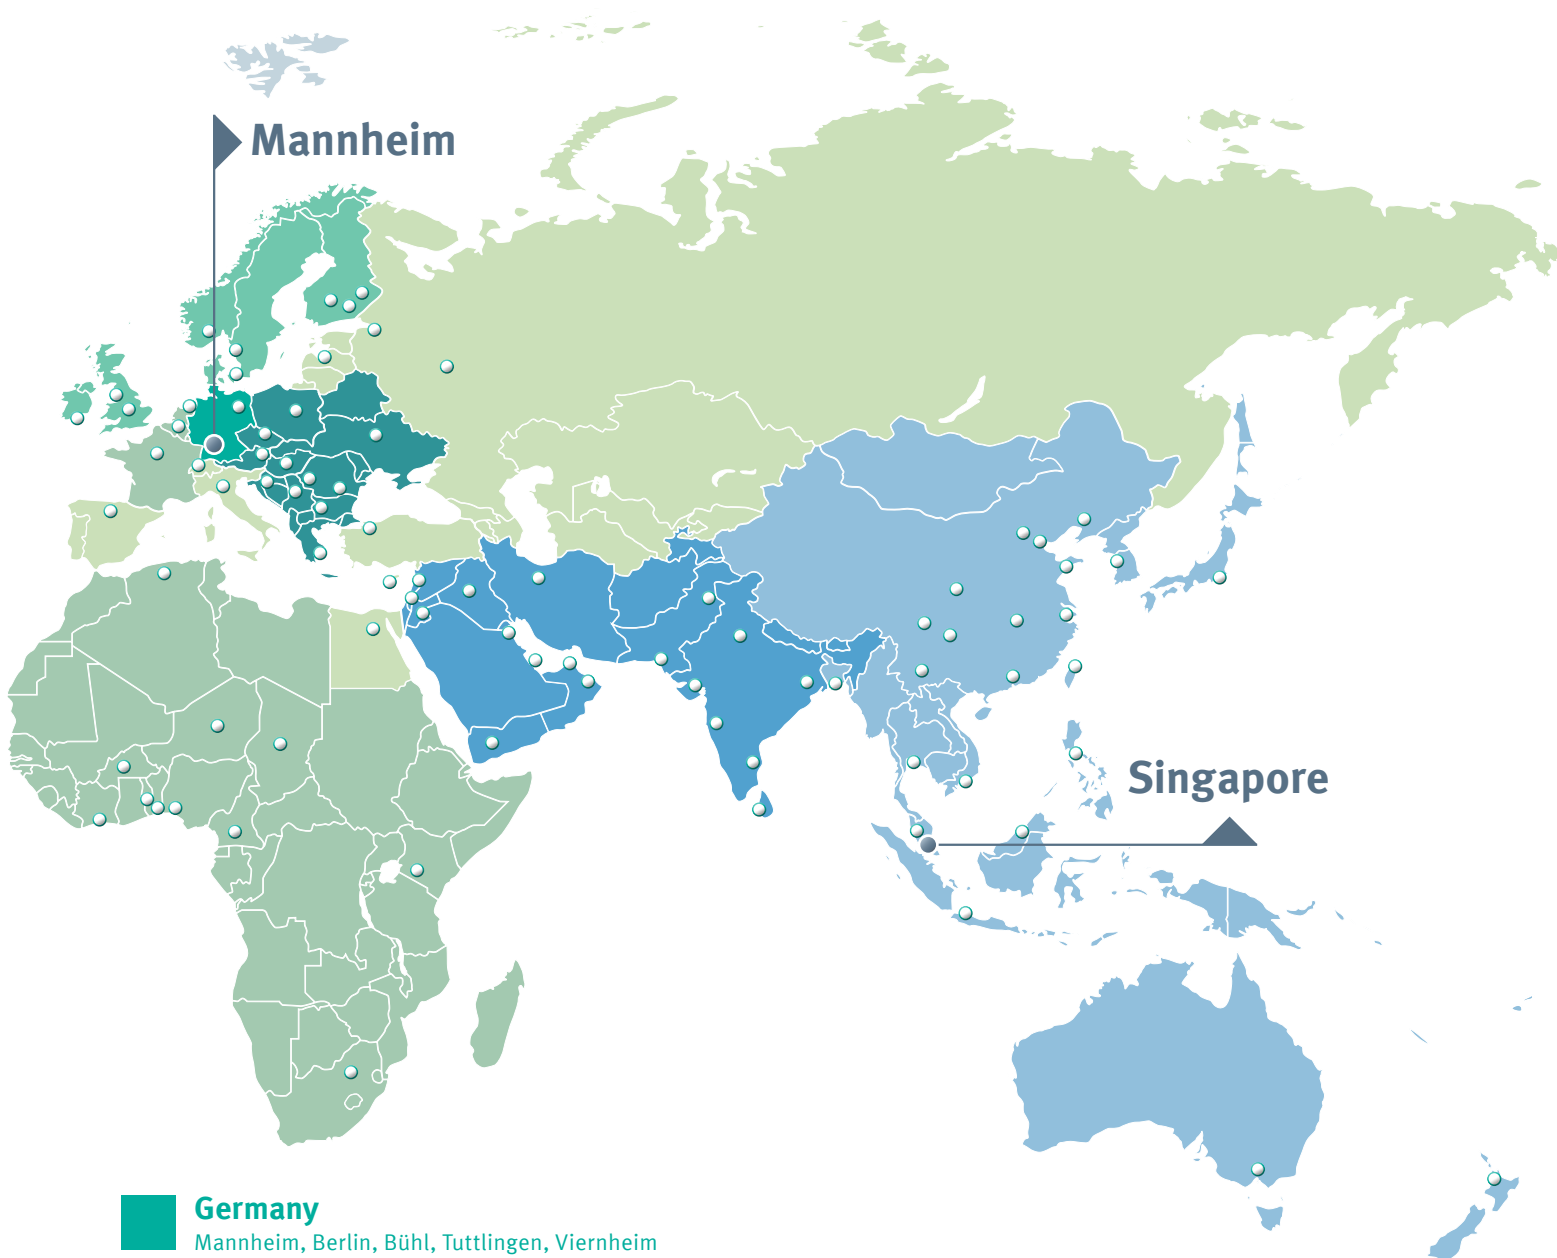

Twinsburg

## At home on all continents

Our customers are at the center of all our activities. Our worldwide network ensures that we provide them with the best possible service and support. Our world headquarters in Mannheim services Europe through a network of more than 40 affiliates. Asia is handled by our office in Singapore, with more than 1000 employees in manufacturing, service, and sales. And our North American headquarters in Twinsburg, Ohio, is responsible for a comprehensive network of offices and sales partners in the USA, Canada, and Mexico.

No matter where in the world you may be, Pepperl+Fuchs is right nearby – and always there for you.

# YOUR APPLICATION. OUR CHALLENGE.

## PROCESS INTERFACES

- Intrinsically safe barriers
- Signal conditioners
- Fieldbus infrastructure
- Remote I/O systems
- HART interface solutions
- Level measurement
- Purge and pressurization systems
- Industrial monitors and HMI solutions
- Explosion protection equipment
- Wireless solutions
- Solutions with process interfaces

## INDUSTRIAL SENSORS

- Proximity sensors
- Photoelectric sensors
- Industrial vision
- Ultrasonic sensors
- Rotary encoders
- Positioning systems
- Inclination and acceleration sensors
- AS-Interface
- Identification systems
- Logic control units
